SUPERPRO

The Superpro Moisture Meter is a new generation of digital moisture meters which gives consistent test results.

The grain is ground and compressed in one operation which together with automatic temperature compensation leads to more reliable results.

MOISTURE ANALYSERS

FOR GRAIN AND SEEDS

SUPERPRO

Additional features:

- Digital readout with accuracy to one decimal point
- Combined grinding and compression of sample
- Built-in measuring cups
- Backlight display
- Automatic temperature compensation
- Grinder made of hardened galvanized steel
- Casing made of shockproof ABS plastic
- Automatic calculation of average value
- Individual calibration for all grain types
- Can be updated with new moisture scales
- Supplied in shockproof carrying case
- 2 year guarantee

The Superpro Moisture Meter: Simple to use in four easy steps:

- Turn on the tester by pressing the ON/TEST button.
- Use the arrow keys to select grain type.

- Pour the sample into the grinder. The sample size is measured out in the built-in measuring cup..

- Grind the sample and press the ON/TEST button.

- Read the moisture content directly from the display.

TECHNICAL SPECIFICATIONS

- Measuring range (Moisture): 5 to 50% depending on croptype
- Operating range (Temperature): 0 to 50 ºC
- Resolution: 0.1% moisture
- Temperature compensation: Automatic

- Weigt including case: 2 kg
- Dimension: 13x21x8 cm
- Battery: 9 V Alkaline
- Display: 2 line LCD with backlight
- Accuracy: Better than +/- 0.25% In normal moisture range by using average and calibration adjustments
